PERSONAL SUMMARY

I am a people-friendly individual who is decision and result oriented, coachable and with good communication skills. As an avid learner, I am comfortably a team player who is largely attracted by the effects of technology on daily affairs, especially as it relates to business, health, community development and human advancement. In addition to my skills and experience in web development, software engineering, sales and marketing, computer engineering, finance and banking, I am also bilingual. I am open to learning new methods to improve myself, my organization and environment by working in your company.
